

PASSIONWORKS!

IDENTIFY, CREATE AND SUSTAIN THE CONDITIONS THAT STIMULATE PASSION WITHIN YOU AND YOUR ORGANISATION

Synopsis

PassionWorks! is a system that leaders, teams and individuals use to create and sustain passion in their current work and workplace.

It is a unique approach to employee motivation and engagement. The process is based on thousands of in-depth assessments of highly successful people located around the world. PassionWorks! is a statistically validated diagnostic tool.

Passion is a strong emotion that happens within each of us when we are doing meaningful work that makes us feel better about ourselves at a pace that feels like real progress!

Participants will be required to complete The Personal Passionworks! Diagnostic Tool by responding to a number of descriptive statements. Some of these statements will provide an indication of the capacity participants have for creating passion in your current working environment, i.e. Passionflow.

And some of these statements will indicate how you are feeling about your work and describe these feelings/ phases in terms of the level of your passion at work.

Based on the results reflected in The Personal Diagnostic Tool Report, you will be able to understand your PassionFlow strength and areas for improvement.

Benefits of Programme

1. Receive a Personalized Diagnostic Tool Report with strategies for bringing or increasing the level of passion in your work
2. A one to one briefing with the trainer to discuss your Personalized Diagnostic Tool Report
3. Creating a more fulfilling work experience while supporting your career management
4. Be self-motivated and positive in managing your work
5. Deal with challenges and overcome obstacles at the work place
6. Learn your drivers of passion, the phases currently dominating your work
7. Learn to be innovative, collaborative and goal oriented
8. Understand how Passionworks! Model can go beyond the Individual and be a tool for Team and Employee Engagement

PROGRAMME OUTLINE
